

Email Template for SAB Death Notification

TO: SCN; Consultant; LN; CSM; GM; Chief Nurse;

CC: ICDataTeam; Sandra Devine; Pamela Joannidis; Kate Hamilton; Ann Lang;
Pauline Hamilton; Angela Robertson; ICD; Your IPCT

Dear all,

I write to inform you of a patient in **[Ward]**, **[Hospital]**, who had a MSSA SAB and has died.

As *Staphylococcus aureus* Bacteraemia (SAB) was noted on the death certificate, a clinical review is required. A DatixWeb report has been generated by the IPCT for this event.

In line with NHS GGC policy, I have attached a copy of the Clinical Review Tool for completion by the clinical team.

Once complete, the data should be inserted into the data fields in the DatixWeb report in Datix electronically. Please do not hesitate to contact a member of the IPCT for further information if required.

Pt Initials	
CHI	
Date of admission	
Date of specimen	
Source of SAB
