Alcohol and Drug Recovery Services (ADRS), formerly known as CATs, will support, advise and assist patients to think about the ways in which alcohol and/or drugs are affecting their life, those around them and those they have responsibility for. When a patient attends an ARDS their needs will be assessed. This involves asking a range of questions and listening to the responses. It is a joint decision as to what treatment and support is needed in the short and long term.

Tier 2 Local Support Services

We Are With You
Working with both alcohol and drug use for people age 16+. We are here at any stage of an individual's journey including aftercare, providing one to one and group based interventions to initiate and sustain recovery. We also support families and parents to address their own or someone else’s substance use and can provide in-reach support to residential or temporary settings for those moving back into the community. We offer a volunteer training and induction program to support people through employability pathways.
Telephone North West: 0808 178 5901
