Dear Colleague,

Glasgow Dental Hospital – Referral Guidelines Update

Please see attached guidelines update detailing essential information to be included when referring patients to Glasgow Dental Hospital.

As you will appreciate, inclusion of this information will facilitate the vetting and appointment process and will contribute to the 18 week referral to treatment standard that will be established by December 2011.

This will take effect from **1st June 2011**. Please note if the required information is **not** included the referral will be returned to the referring practitioner detailing the reasons why the patient has not been appointed to a clinic.

Thank you in anticipation of your assistance.

With best wishes.

Yours sincerely
