	Andy Williams		
	Alison Cloudsley		
	Lisa Kerr		
	Sarah Brady		
	Kate Munro		

1. Reporting Back on Canada

Agreed that we will work together on a multi-media presentation about our trip and what we learned about the hospitals. Kate will write out to everyone with some questions to get things started. Tari will help to collate the answers and produce a draft presentation for everyone to look at.

Please send any pictures you would like in the presentation to Kate.

2. Film of our Study Trip to Canada

Joeh and Jackie have started working on the film. There is about 4 1/2 hours of footage and 272 pictures. These have been sorted into folders and the first edit is underway. Joeh reported that he had reduced a 20 minute section of film into 10 seconds of usable footage! The first edit will be ready by the end of October when it will be passed to Enterprise Screen.

Joeh has made a short "unofficial" film of the trip which he showed to the meeting.

Everyone thought it was great. Joeh will send an MPEG to Kate for her to send out to the group.

3. What do we do next?

Kate reported that the contractor for the New Children's Hospital will be appointed in November. After that there will be a very busy 6-9 months work with the architects and designers to agree the plans for the new buildings. Kate reported that she would be inviting 4 teenagers to join the Panel to help with this work. These were all people who had taken part in workshops and surveys with us.

It was confirmed that Joeh would continue to represent the Youth Panel on the Stakeholder Reference Group and that Jacckie and Andy would be our reps on the Community Engagement Advisory Group for the adult hospital. As everyone is busy and have lots of other commitments with work, college etc it is not always possible to go to NHS meetings. Agreed that if the named representative couldn't attend then they would let Kate know and she would arrange for someone else from the Panel to attend. That way we can make sure that there is always someone at meetings to represent the views of young people.
