

## NHS Greater Glasgow & Clyde - 2013 Annual Review

### At A Glance – 2012-13 HEAT Target Performance

- A total of 15,320 **alcohol brief interventions** were delivered during 2012-13, exceeding the planned number of 14,066 interventions by 9%.
- **Smoking cessation** – From April 2011 to March 2013 NHSGGC supported a total of 13,873 successful quit attempts (at one month post quit) in the 40% most deprived SIMD areas, exceeding the target of 12,182.
- A total of 2,321 children completed the **child healthy weight intervention** programme by March 2013, above the target of 2,261.
- NHSGGC remained in **financial balance** and met the **cash efficiency** target at the end of March 2013, whilst at the same time delivering on a range of service developments and improvements.
- As at March 2013, 95.1% of patients referred urgently with a suspicion of cancer began treatment within **62 days of receipt of referral** and 98.4% of our patients diagnosed with cancer **began treatment within 31 days** exceeding the target of 95%.
- As at March 2013, 91% of patients were treated within **18 weeks of Referral To Treatment** against a target of 90%.
- As at March 2013, 82% of patients were admitted to a stroke unit on the day of admission or the day following presentation, below the expected target of 90%.
- NHSGGC continuously exceeded the 91.5% **drug and alcohol waiting times** target, averaging 93.8% during 2012-13.
- Across NHSGGC, **the rate of attendance per 100,000 population at Accident & Emergency** was 2,799 at March 2013, keeping below the target of 2,949. An average of 92.9% of patients waited four hours or less, lower than the target of 98% for 2012-13.
- NHSGGC continued to achieve reductions in the number of **Staphylococcus Aureus Bacteraemia** and **C Difficile Infections** reported throughout 2012-13, however, performance was slightly above target in relation to **Staphylococcus Aureus Bacteraemia**.
- There were 16 patients waiting **more than 28 days** to be discharged from hospital in April 2013.
- As at the end of March 2013 NHSGGC reported a total of 9,002 people **diagnosed with dementia**.
- As at March 2013, no new outpatient **waited more than 12 weeks** from referral.
- As at March 2013, 4.86% **sickness absence rate** was recorded among NHSGGC staff above the 4% target.
